Air

Jurassic Park: Fallen Kingdom

The Jester

Frailty

## The Bible.... a big book....!

The quick answer is yes it is..... So where to begin, The best place would be at the start. But which start in a big book with two beginnings That which we know as the Old Testament, with Genesis. Then the New Testament beginning with The Gospel of Matthew. So as good Anglicans we should choose both at the same time. So these are good places to start because they are not easy, but both require a bit of understanding from us as readers. Each book tells a story it tells a story with intent. The author wants us to know thing, to understand things. These operate across three ideas first begin about God, secondly how he desires to be in relationship with people. Finally it shows us ourselves.

### *Those three things*

They matter as we approach our scriptures, we are to affect or is it effected i do find that difficult, but not to worried about it. To endeavour to encounter is to desire to be changed. A changed forward, as Paul the Apostle would phrase it changed from glory into glory. The longer we walk with our God, the greater our desire to be different to how we are and begin

Stargate: The Ark of Truth

**30/08/25**

The Count of Monte Cristo

**31/08/25**

Aquaman and the Lost kingdom

bridging the distance towards who we could become. Which does make Genesis a most fascinating read. Watching each of the main characters Adam, Eve, Noah, Abram and Sara. Those last two and then rest of their family are just about the worst soap opera ever. But so much worth the read.

The journey from Genesis to reading Matthew is mostly about holding the idea of the God who desires to be in relationship which humanity, while not be prepared to wait but come to people. While giving people means of reconnecting with themselves and those around them. then ultimately back to God.

this is unedited by Tracy so it has all my poor sentence construction and all my dyslexia stuff.
